CW2D
Modelling Software for Subsurface
Flow Constructed Wetlands
Two Day Workshop

With instructor

Dr Gunter Langergraber,

University of Natural Resources and Applied Life
Sciences, Vienna (BOKU).

Location

July 10&11, 2008

Murdoch University

Perth, Western Australia

This two day workshop on the modelling of subsurface flow constructed wetlands using the state of the art CW2D module incorporated in the HYDRUS software will be held at Murdoch University. This workshop will be led by software designer Dr Gunter Langergraber, from the University of Natural Resources and Applied Life Sciences, Vienna (BOKU). This workshop will include hands-on computer sessions and allow participants to become familiar with the Windows-based CW2D module of HYDRUS (see www.pc-progress.cz for further software details). This is an exciting opportunity to learn how to operate one of the most advanced simulation tools available for constructed wetlands in the world. This workshop is recommended for people working in the areas of constructed wetlands for wastewater and stormwater treatment, biological treatment systems, ecological design and groundwater hydrology.

Organisers

Dr Stewart Dallas & Dr Jaya Nair

s.dallas@murdoch.edu.au

t: (61-8) 9360 6560

f: (61-8) 9360 7311

Environmental Technology Centre (ETC),

School of Environmental Science

Murdoch University

South St, Murdoch 6150

Workshop Location

The two day workshop will be held in the Loneragan Building computer lab LB3.032

Enrolment and Registration

The cost of this two day workshop is \$550 per participant and includes morning/afternoon teas and lunches on both days, and workshop handouts. Space is limited and we would request you contact the organisers as soon as possible to reserve your space. Full payment will be required early in 2008.
